

Residential Snow Removal Underway in Lucas Heights

Snow Removal Operations Will Return to Riverside on Friday

As Town of Ponoka crews continue working to remove snow from roadways throughout the community, snow removal operations are underway in Lucas Heights (Zone 1) **today, January 29** along the following residential roadways:

- 54 Street from Highway 2A to 57 Avenue;
- 54 Avenue from 54 Street to 64 Street; and
- 53 Avenue from 56 Street and 57 Street.

Please note that snow removal operations have moved to Lucas Heights for the day due to waste collection in Riverside.

Snow removal operations will return to Riverside (Zone 4) **tomorrow, January 30** along the following residential roadways:

- 41 Street Close south of 48 Avenue;
- 45A Street from 42 Avenue to 40 Avenue; and
- 44 Street from 42 Avenue to 40 Avenue.

Snow removal on roadways in residential zones is expected to continue over the coming weeks. More details on which streets are scheduled to receive snow removal will be provided later this week.

Snow and ice control crews are also:

- Sanding roadways throughout the community as needed; and
- Sanding on sidewalks adjacent to Town-owned properties and on walking trails.

'No Parking' Signs

Please watch for 'No Parking' signs and move parked vehicles from roads when the signs are posted. Removing your vehicle from the roadway when 'No Parking' signs are posted in advance of snow removal operations is a requirement under the Town's Traffic Bylaw and can result in fines and towing of the vehicle at the owner's expense if needed.

Removing your vehicle from the road also helps crews conduct snow and ice control operations safely and more efficiently.

Community Advisory Signs

Community advisory signs are also posted in residential neighbourhoods 48 hours in advance of snow removal operations to give residents notice of when snow removal is scheduled to occur.

Please note that changing weather conditions and new snowfall events can require crews to direct their attention back to priority routes and delay planned snow removal operations. As a result, crews may not complete the entire zone and will return at a later date.
