Why might a pool be closed? Unexpected pool closures do occur. There are a variety of reasons including pool fouling, unbalanced chemical levels, and mechanical or maintenance issues. Most problems can be rectified quickly, but some issues may need up to 24 hours to allow for the necessary disinfection or troubleshooting to resolve the issue. In some instances, pools may have to be closed for longer durations to ensure your health and safety. Temporary pool closures will be posted to the Town of Ponoka website www.ponoka.ca and social media (Facebook, Twitter, and Instagram @TownofPonoka.)
