Context and Methodology

Context

- Ponoka, a growing community of approximately 7,229 residents settled in the Battle River Valley, is dedicated to maintaining a high quality of life for its residents and to meaningfully engaging its citizens.
- One of the keys to accomplishing this is to understand residents' awareness, involvement, preferences and satisfaction with the Town's programs, services, events, and decision-making.
- To this end, the Town of Ponoka commissioned a survey to provide a comprehensive evaluation of citizens' opinions on topics such as satisfaction with Town services and priorities they feel deserve the attention of municipal leaders.
- Ultimately, the research will help Town staff and Council make more informed decisions concerning strategic planning and budgeting.

Methodology

- Between September 12th and 30th, 2019, Ipsos conducted telephone interviews with a representative sample of 400 randomly selected Ponoka residents aged 18 years or older.
 - 33% of the interviews were conducted with cell phone sample and 67% with landline sample
- Final data were weighted to ensure the age/gender distribution reflects that of the actual population in Ponoka according to the most recent Census data.
- Factoring the population size of Ponoka as being under 8,000 residents, the overall results are accurate to within ±4.8 percentage points, 19 times out of 20. The margin of error will be larger for sample subgroups.
- The average interview duration was 21 minutes.

 - Most residents say their quality of life has been stable over the past 3 years, and slightly more residents feel it has improved (23%) than worsened (19%).
 - In residents' own words, the high quality of life they experience is premised on the atmosphere of a 'friendly', 'peaceful', 'small community' which offers social services, recreational opportunities and local amenities.
- **Opportunities for improvement focus on recreation, economic development and growth and road/sidewalk maintenance.**
 - <u>Recreation:</u> Recreation ranks #1 on the issue agenda, ranks #2 for 'more' investment and receives relatively lower overall satisfaction ratings. Recreation is highly important to residents, of which a slight majority (53%) would support increasing property taxes to fund building a Community Wellness Centre.
 - <u>Economic development and growth:</u> This is also highly important to residents, ranks #1 of all services requiring 'more' investment and receives the lowest overall satisfaction ratings of all 14 municipal services evaluated. While three-quarters of residents are making day-to-day purchases in Ponoka, only 18% are making big-ticket purchases in the Town. Red Deer garners the highest proportion of 'out-of-Ponoka' purchases.
 - Road and sidewalk maintenance: This service area ranks high in terms of importance, ranks highly on the issue agenda, is the #3 area in which 'more' investment is desired, and receives relatively lower satisfaction ratings.
- **Satisfaction** with Town communications is strong and multiple communications channels are required to reach the masses.
 - Eight-in-ten (79%) residents express satisfaction with Town Communications and the Hometown Weekly News page is the most widely used mode of Town communication, followed by the website and the Town's Facebook page. 	we didn't get. But it wasn't very smooth. Big fights in the Town Hall, that kind of stuff. What else? They put up a great big new Town Hall and
	everything and there's been lotsa lots of issues in the paper that they really got a rotten deal and it'll cost more than it should. I don't have
