

## **Waste & Recycling Program Public Open House**

### ***Town of Ponoka Waste & Recycling Program Review Update***

- **The Town began a review of its Waste Management & Recycling Program late last year to gauge citizen satisfaction with Ponoka's curbside Waste & Recycling Program and to evaluate possible changes to the program for 2019.**
- **The program review involves a significant public consultation component and research into the cost and logistics of various program design options prior to a new Waste Management & Recycling Program contract being put in place for 2019.**
- **The Town's current Waste Management & Recycling Program contract expires at the end of December 2018, requiring a new contract to be in place for January 1, 2019.**

## Waste & Recycling Program Public Open House

- The Town has listened and carefully reviewed citizen input received at a Public Open House in May 2018 and through a survey completed by just over 300 Ponoka citizens this past spring.
- Based on that public input and on research into the cost and potential benefits of various program design options, **the Town is presenting proposed changes to Ponoka's Waste & Recycling Program for 2019 for public review and comment** (at a Public Open House on July 18 from 3 – 6:30 pm at the Kinsmen Community Centre, and on the Town website at [www.ponoka.ca](http://www.ponoka.ca)).
